# Stefano Orlati Titus+

# Light up your room with style and flexibility

Well chosen lighting can work wonders on the look and feel of a space. With the newest lighting products from Stefano Orlati, you'll have everything you need to create a versatile and high-end ambiance in any room.

Our new matt black profiles offer seamless integration for high-end kitchens and with new tuneable LED strip lighting, you need no longer settle for just warm or cool white. As seen at AWISA 2018, our dimmable LED strips allow you to control the colour temperature for a highly-effective mood enhancer to suit any occassion.

- Matt black profiles to protect and enhance LED strip lighting with style
- Adjust colour temperature with tuneable strip lights
- Plug and play installation - no electrician required
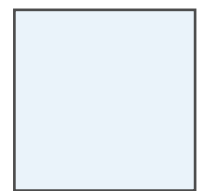

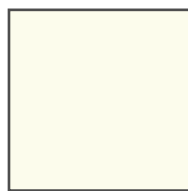

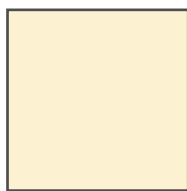

Warm White   Cool White

LED Lighting
Information

LED Lighting is an extremely effective design tool which can be used to transform and enhance a space.

Stefano Orlati lighting offers both functional and decorative applications – with its key roles being task & mood lighting.

There are so many clever ways to incorporate LED Lighting into an interior scheme. In the kitchen, the addition of under-cabinetry lighting can enhance & open up a space. In the bathroom practical lighting can be incorporated such as ensuring the mirror is well lit or using a Dimmer to control the brightness and mood of the space. Using strip lights or downlights in an open shelf or an entertainment unit is a great accent lighting option which can elevate & highlight the space.

LED Lighting is safe, environmentally friendly & contains no toxic mercury. It uses approx. 85% less energy than halogen or incandescent lights.

Ordering

Use the table below as a reference guide for strip lights colours and options.

PROFILE OPTIONS

Profile Option	Code	Profile Option	Code

PROFILE COLOUR (OPTIONAL)

Profile Colour	Code	
Matt Black	MB	Note: Default profile colour is Foggy Silver. To order Matt Black profiles, please add "-MB" to the end of code string as per example below.

MTM

When ordering Made to Measure lighting, please order using the following code string, for example:

Made to Measure **MTM** | Profile & Diffuser Option **SLIM-OP** | Strip Light Option / Colour **3528-CW** | **MB** (optional)
CODE: MTM-SLIM-OP-3528-CW-MB

DIY

All DIY codes are specified on each product. When ordering DIY LED Profiles please order using the following code string, for example:
[SPECIFY QUANTITY] **CODE: DIY-SLIM-OP-MB** (MB is optional)

Lighting Product Warranty

All Stefano Orlati lighting products offer you the warranties extended to you under consumer protection legislation. Our warranty is for one year from the date of purchase. The warranty is void if the lighting products are used with a transformer sourced from another supplier.

Matt Black Profiles

LED Profiles transform the LED Strip Light into a complete lighting fixture which gives a stylish and finished look. They assist with heat dissipation of the strip light and ensure longevity of the LED diodes. The profile is composed of an aluminium backing and perspex diffuser which preserves and protects the strip light. Clear diffuser options provide maximum illumination and opaque diffusers diffuse light for a softer glow.

LED Profile Options

Made to Measure (MTM)
All Made to Measure orders are fabricated by us to your measurements. The profile includes diffuser, end caps, mounting clips (if applicable) & LED Strip Light option.
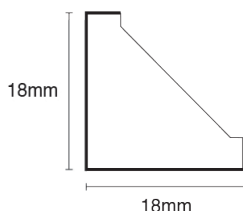

MTM

Do It Yourself (DIY)
Choose your required LED components. All DIY components are supplied separately.
