

Bi-fold Door System Set F400

Flexible space-savers

Create style and definition with bi-fold room partitions. Maximise space and de-clutter communal areas with hidden laundries and wardrobes.

For top-hung folding door systems

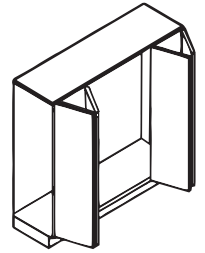

In conjunction with the T-type Hinge, Set F400 provides a soft-closing folding door system without a bottom running track. Ideal for room dividers, kitchen pantry and appliance cupboards, walk-in cupboards, wardrobes and walk-in robes, and partitioned laundry applications.

The 30kg load capacity per door offers the flexibility to use a variety of door panels to create the perfect style to suit your application. When used with the Titus T-type Glissando hinge, you can be confident that the Titus proprietary damping technology will ensure smooth and consistent soft close action for the lifetime of the hinge.

The T-type hinge's innovative 3Way snap-on hinge-to-plate mounting system enables quick and easy installation, particularly for tall doors, for an all-round intuitive and user-friendly assembly.
